INDEPENDENT AUDITOR'S REPORT

To the School Board
Hillsboro-Deering Cooperative School District

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Hillsboro-Deering Cooperative School District (the District), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Hillsboro-Deering Cooperative School District, as of June 30, 2015, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of funding progress for other post-employment benefits, schedule of changes in the District's proportionate share of the net pension liability, and schedule of District contributions on pages i-v and 24-29 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Hillsboro-Deering Cooperative School District's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Additionally, the combining nonmajor governmental fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The schedule of expenditures of federal awards and the combining nonmajor governmental fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards and the combining nonmajor governmental fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 31, 2016 on our consideration of the Hillsboro-Deering Cooperative School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Hillsboro-Deering Cooperative School District's internal control over financial reporting and compliance.

**HILLSBORO-DEERING COOPERATIVE SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FISCAL YEAR ENDING JUNE 30, 2015**

Presented herewith please find the Management Discussion & Analysis Report for the Hillsboro-Deering Cooperative School District (the District) for the fiscal year ending June 30, 2015. Responsibility for both the accuracy of the data and the completeness and fairness of this presentation (including all disclosures) rests with management. To the best of our knowledge and belief, the data contained herein is accurate in all material respects. This data is reported in a manner designed to fairly present the District's financial position, and the results of operations of the various funds of the District. All disclosures necessary to enable the reader to gain an accurate understanding of the District's financial activities have been included.

The District is responsible for establishing an accounting and internal control structure designed to ensure that the physical, data, informational, intellectual, and human resource assets of the District are protected from loss, theft, and misuse, and to ensure that adequate accounting information is maintained and reported in conformity with generally accepted accounting principles (GAAP). Management also strives to ensure that these assets are put to good and effective use. The internal control structure is designed to provide reasonable assurances that these objectives are attained.

Overview of the Financial Statements

The financial statements presented herein include all of the activities of the Hillsboro-Deering Cooperative School District using the integrated approach as prescribed by GASB Statement 34.

This discussion and analysis is intended to serve as an introduction to Hillsboro-Deering Cooperative School District's financial statements. The basic financial statements are comprised of the following three components:

1. Government-wide financial statements
2. Fund financial statements
3. Notes to the basic financial statements

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District finances, in a manner similar to most private-sector companies.

The statement of net position presents information on all of the District's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the remaining difference reported as net position. Over time, increases and decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

During the year ended June 30, 2015, the District adopted Governmental Accounting Standards Board (GASB) Statement No. 68 - *Accounting and Financial Reporting for Pensions*. Under GASB Statement 68, the District is required to report its proportional share of the New Hampshire Retirement Systems unfunded pension liability as 'Net Pension Liability' on the government-wide financial statements. The

**HILLSBORO-DEERING COOPERATIVE SCHOOL DISTRICT

net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2013. See the notes to the basic financial statements for further information.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between the governmental activities statement of net position and statement of activities.

The District maintains numerous individual governmental funds. Information is presented separately in the governmental fund balance sheet and the statement of revenues, expenditures and changes in fund balances for the General Fund and Grants Fund, which are both considered major funds. Data from other governmental funds are combined into a single, aggregate presentation.

The District adopts an annual appropriation budget for its governmental funds. A budgetary comparison has been provided for the General Fund to demonstrate compliance with this budget. Budgetary information has not been included in these financial statements for the Grants Fund as it is neither practical nor meaningful.

Fiduciary funds are used to account for resources held for the benefit of parties outside of the District. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The District's fiduciary funds consist solely of the Student Activities Agency Funds.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain

required supplementary information which is required to be disclosed by accounting principles generally accepted in the United States of America.

Financial Highlights

As of the close of the fiscal year, total assets and deferred outflows of resources were less than liabilities and deferred inflows of resources by (\$1,410,256) (i.e., net position), an increase of \$274,479 from the previous year.

Total Governmental Funds reported combined ending fund balances of \$2,228,572, a decrease of (\$199,582) from the previous year.

The General Fund shows a year end fund balance of \$1,957,767, a decrease of (\$249,829) from the previous year.

The Grants Fund shows a year end fund balance of \$533, no change from the previous year.

The Nonmajor Governmental Fund shows a year end fund balance of \$270,272, an increase of \$50,247 from the previous year.

The District's combined net position increased by 16.3% to (\$1,410,256) on the full accrual basis of accounting.

Hillsboro-Deering Cooperative School District Activities

As shown in the above statement, the District experienced an increase in financial position of \$274,479 from the prior fiscal year. This was primarily due to actual current year expenditures being well below the budgeted appropriations.

The General Fund shows a fund balance of \$1,957,767 (including expendable trusts), a decrease of (\$249,829) or 11.3% from the previous fiscal year. A decrease in fund balance was anticipated as the District applied fund balance to proposed expenditures and stabilized the tax rate.

**HILLSBORO-DEERING COOPERATIVE SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FISCAL YEAR ENDING JUNE 30, 2015**

The Grants Fund had a fund balance of \$533 at year end. The Grants Fund is used to account for financial resources of the various state and federal grant activities of the District and is self-balancing.

The Nonmajor Governmental Fund of the District consists of the Food Service Fund, Donations Fund and Capital Projects Fund, which had a combined year end fund balance of \$270,272. The activities of the Nonmajor Governmental Funds experienced an increase from the prior year in the amount of \$50,247 which was attributable to the increase of private fees received for afterschool activities and the increase revenues in Food Service.

General Fund Budgetary Highlights

Actual total revenues on the budgetary basis exceeded the budgeted amount by \$357,785. A significant portion of this difference is due to tuition for students in excess of the estimated enrollment and Medicaid revenue from the State of New Hampshire. Actual total expenditures were below budgeted appropriations by \$660,454. Significant savings were realized in instruction, supporting services, instructional staff services and general administration functions.

Capital Assets

The Hillsboro-Deering Cooperative School District considers a capital asset to be an asset with a useful life of greater than one year and whose costs exceed or equal \$5,000. Assets are depreciated using the straight-line method over the course of their estimated useful life. During the fiscal year ended June 30, 2015, the net capital assets of the District decreased by (\$431,848) as a result of additions of \$285,344 and current period depreciation expense of (\$717,192). See Note 5 in the notes to the basic financial statements for additional information on the capital assets activity.

Long-Term Obligations

During the fiscal year ended June 30, 2015, the District's bonds payable and capital lease payable decreased by (\$735,000) and (\$47,825), respectively, as a result of scheduled payments made on existing obligations. The liabilities for other post-employment benefits and net pension had a net increase and decrease in potential future payments of \$124,917 and (\$2,065,190), respectively. Compensated absences payable and early retirement benefits had a net decreases and increase in potential future payments of (\$4,697) and \$48,719, respectively. See Notes 6, 7 & 8 in the notes to the basic financial statements for additional information on the long-term obligations.

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Hillsboro-Deering Cooperative School District conform to accounting principles generally accepted in the United States of America for local educational units of government, except as indicated hereinafter. The following is a summary of significant accounting policies.

Financial Reporting Entity

The Hillsboro-Deering Cooperative School District (the District) is an independent governmental entity organized under the laws of the State of New Hampshire to provide public education within the borders of the Towns of Hillsboro and Deering, New Hampshire. The District's legislative body is the annual deliberative session followed by balloting of registered voters within the District and is governed by an elected School Board. Administrative services are provided to the District by School Administrative Unit #34. The District has no other separate organizational units, which meet criteria for inclusion in the financial statements as defined by the Governmental Accounting Standards Board (GASB).

Basis of Presentation

The District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

1. Government-Wide Financial Statements:

The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds.

The statement of net position presents the financial condition of the governmental activities of the District at year end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and, therefore, clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

2. Fund Financial Statements:

During the year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The fiduciary funds are reported by type.

Fund Accounting

The District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The District employs the use of two categories of funds: governmental and fiduciary.

1. Governmental Funds:

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources, and liabilities and deferred inflows of resources, is reported as fund balance. The following are the District's major governmental funds:

The *General Fund* is the main operating fund of the District and is used to account for all financial resources except those required to be accounted for in another fund.

The *Grants Fund* is used to account for the financial transactions related to various state and federal education grants and the related expenditures.

2. Fiduciary Funds:

Fiduciary fund reporting focuses on net position and changes in net position. The District maintains one fiduciary fund, an agency fund known as the Student Activities Agency Fund. The agency fund was established to account for revenues generated by student managed activities. The District's agency fund is custodial in nature (assets equal liabilities) and does not involve the measurement of results of operations.

Measurement Focus

1. Government-Wide Financial Statements:

The government-wide financial statements are prepared using the economic resources measurement focus. All assets, deferred outflows of resources, liabilities, and deferred inflows of resources associated with the operation of the District are included on the Statement of Net Position.

2. Fund Financial Statements:

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets, deferred outflows of resources, current liabilities, and deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliations with

HILLSBORO-DEERING COOPERATIVE SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Fiduciary funds also use the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of unearned revenue, and in the presentation of expenses versus expenditures.

1. Revenues – Exchange and Non-exchange Transactions:

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year end.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (see Note 2). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year end: property taxes available as an advance, interest, tuition, grants, and student fees.

2. Unearned Revenue:

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Grants and entitlements received before the eligibility requirements are met are recorded as advances from grantors. On governmental fund financial statements, receivables that will not be collected within the available period have also been reported as unearned revenue.

3. Expenses/Expenditures:

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in

HILLSBORO-DEERING COOPERATIVE SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)
For the Year Ended June 30, 2015

which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization are not recognized in governmental funds.

Budgetary Data

The District's budget represents functional appropriations as authorized by annual District meetings. The school board may transfer funds between operating categories as they deem necessary. The District adopts its budget under State regulations, which differ somewhat from accounting principles generally accepted in the United States of America in that the focus is on the entire governmental unit rather than on the basis of fund types.

State law requires balanced budgets but requires the use of beginning fund balance to reduce the property tax rate. For the year ended June 30, 2015, the District applied \$1,421,606 of its fund balance to reduce taxes.

Inventory

On government-wide financial statements, inventory is presented at the lower of cost or market on a first-in, first-out basis. Inventory in governmental funds consists of food supplies held for consumption. The cost of inventory items is recorded as expenditures in the governmental fund types when initially purchased.

Capital Assets

General capital assets result from expenditures in the governmental funds. These assets are reported in governmental activities column of the government-wide statement of net position, but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair values as of the date received. The District does not possess any intangible assets. The District maintains a capitalization threshold of \$5,000. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets except for land are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Years</u>
Land improvements	20
Buildings and improvements	5-50
Furniture and equipment	2-20

Compensated Absences

Pursuant to the collective bargaining agreement, District teachers may earn and accumulate (subject to certain limitations) unused sick leave. District teachers with at least 10 years of service may accumulate up to a maximum of 100 unused sick days and teachers with 20 years or more of service may accumulate

HILLSBORO-DEERING COOPERATIVE SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)
For the Year Ended June 30, 2015

up to a maximum of 118 unused sick days. Upon termination of employment, District teachers with 10 years of continuous service shall receive a separation payment in the amount of 50% of their unused sick leave at the rate of \$50 per day. These provisions do not apply to District teachers opting for the early retirement benefits incentive (see 'Early Retirement Benefits' below).

Pursuant to the collective bargaining agreement, District support staff may earn and accumulate (subject to certain limitations) unused sick leave. Upon termination for cause, all unused sick leave balances for District support staff shall lapse. Upon resignation, District support staff with at least 10 years of service shall receive \$20 per day for any unused sick leave up to 90 days and District support staff with at least 20 years of service shall receive \$30 per day for any unused sick leave up to 90 days.

For governmental fund financial statements, compensated absences are reported as liabilities and expenditures as payments come due each period upon the occurrence of employee death or retirement. The entire compensated absence liability is reported on the government-wide financial statements.

Early Retirement Benefits

Upon voluntary separation from the District, teachers with 20 years or more of District service (including any and all time served in any schools that are in the District) are eligible to receive a one-time separation payment. The amount of the separation payment is calculated at 1% of employee salary multiplied by the number of years in the District, plus 50% of their per diem rate multiplied by their number of unused sick days up to a maximum of 118 days.

For governmental fund financial statements, early retirement benefits are reported as liabilities and expenditures as payments come due each period based upon voluntary separation of qualified teachers. The entire early retirement benefits liability is reported on the government-wide financial statements.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current resources, are reported as obligations of the funds. However, compensated absences and early retirement benefits that will be paid from governmental funds are reported as liabilities in the fund financial statements only to the extent that they are due for payment during the current fiscal year. General obligation bonds, capital leases, and other long-term obligations that will be paid from governmental funds are recognized as a liability in the fund financial statements when due.

Pensions

During the year ended June 30, 2015, the District adopted Governmental Accounting Standards Board (GASB) Statement No. 68 - *Accounting and Financial Reporting for Pensions*. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the New Hampshire Retirement System (NHRS) and additions to/deductions from NHRS's fiduciary net position have been determined on the same basis as they are reported by NHRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms.

For the Year Ended June 30, 2015

Net Position

Net position represents the difference between assets and deferred outflows of resources, and liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances on any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Unrestricted net position is the net amount of the assets, deferred outflows of resources, liabilities and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted components of net position.

The District's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

Fund Balance Policy

Under GASB Statement 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, the District has segregated fund balance into five classifications: Nonspendable, Restricted, Committed, Assigned, and Unassigned. These components of fund balance are defined as follows:

- *Nonspendable Fund Balance:* Amounts that are not in a spendable form or are required to be maintained intact.
- *Restricted Fund Balance:* Amounts that can only be spent for specific purposes stipulated by applicable state and local laws and regulations, external resource providers or through enabling legislation.
- *Committed Fund Balance:* Amounts constrained to specific purposes pursuant to a formal action by the District itself using its highest level of decision-making authority (the School Board). To be reported as committed, amounts cannot be used for any other purpose unless the government takes the same formal action to remove or change the constraint.
- *Assigned Fund Balance:* Amounts the District intends to use for specific purposes, but do not meet the criteria to be classified as restricted or committed. For governmental funds other than the General Fund, assigned fund balance represents the remaining balance that is not restricted or committed.
- *Unassigned Fund Balance:* Includes the residual classification for the District's General Fund and includes all spendable amounts not constrained in other classifications. In other governmental funds, the unassigned classification should only be used to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The District's policy is to return to the Town, any unassigned fund balance at fiscal year end, to be used to offset the subsequent fiscal year's tax rate.

Authority to Assign

The School Board delegates to the Superintendent of Schools, the authority to assign amounts to be used for specific purposes. Such assignments cannot exceed the available fund balance in any particular fund.

HILLSBORO-DEERING COOPERATIVE SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)
For the Year Ended June 30, 2015

Spending Prioritizations

The District's policy is to first apply restricted resources when expenditures are incurred for purposes for which both restricted and unrestricted fund balance is available. When expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications can be used, committed amounts should be reduced first, followed by assigned amounts then unassigned amounts.

Deficit Fund Balance

Pursuant to the District's policy, at year end if any of the special revenue funds has a deficit unassigned fund balance, a transfer from the General Fund will be recorded at year end to cover the deficit, providing the General Fund has the resources to do so.

Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTE 2—PROPERTY TAXES

Property taxes levied to support the Hillsboro-Deering Cooperative School District are based on the assessed valuation of the prior April 1st for all taxable real property.

Under state statutes, the Towns of Hillsboro and Deering, New Hampshire (both independent governmental units) collect School District taxes and State of New Hampshire Education taxes as part of local property tax assessments. As collection agents, the Towns are required to pay over to the District their share of property tax assessments through periodic payments based on cash flow requirements of the District. The Towns assume financial responsibility for all uncollected property taxes under state statutes. For the year ended June 30, 2015, School District taxes were \$9,741,176 and State of New Hampshire Education taxes were \$1,563,460.

The District is entitled to receive monies under the established payment schedule and the unpaid amount at the fiscal year end, if any, is considered to be an "accounts receivable" since the revenue is both measurable and available.

NOTE 3—RISK MANAGEMENT

The District is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the year ended

HILLSBORO-DEERING COOPERATIVE SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)
For the Year Ended June 30, 2015

June 30, 2015, the District was a member of and participated in a public entity risk pool (Trust) for property and liability insurance and worker's compensation coverage. Coverage has not been significantly reduced from the prior year and settled claims have not exceeded coverage in any of the past three years.

The Trust agreements permit the Trust to make additional assessments to members should there be a deficiency in Trust assets to meet its liabilities. Accounting principles generally accepted in the United States of America require members of pools with a sharing of risk to determine whether or not such assessment is probable and, if so, a reasonable estimate of such assessment. At this time, the Trust foresees no likelihood of an additional assessment for any of the past years. Claims expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported. Based on the best available information there is no liability at June 30, 2015.

Property and Liability Insurance

The Trust provides certain property and liability insurance coverage to member school districts, school administrative units, and other qualified political subdivisions of New Hampshire. As a member of the Trust, the District shares in contributing to the cost of and receiving benefit from a self-insured pooled risk management program. The program includes a Self-Insured Retention Fund from which is paid up to \$500,000 for each and every covered property, crime and/or liability loss that exceeds \$1,000, up to an aggregate of \$5,000,000. Each property loss is subject to a \$1,000 deductible. All losses over the aggregate are covered by insurance policies.

Worker's Compensation

The Trust provides statutory worker's compensation coverage to member school districts, school administrative units, and other qualified political subdivisions of New Hampshire. The Trust is self-sustaining through annual member premiums and provides coverage for the statutorily required workers' compensation benefits and employer's liability coverage up to \$2,000,000. The program includes a Loss Fund from which is paid up to \$500,000 for each and every covered claim.

The District's investment policy for governmental funds require that deposits and investments be made in accordance with RSA 197:23a. The District Treasurer shall deposit moneys in participating units in the public deposit investment pool established pursuant to RSA 383:22, or in federally insured banks chartered under the laws of New Hampshire or the federal government with a branch within the state, except that funds may be deposited in banks outside the state if such banks pledge and deliver to a third party custodial bank or the regional federal reserve bank collateral security for such deposits of United States government obligations, United States government agency obligations, or obligations of the State of New Hampshire in value at least equal to the amount of the deposit in each case.

Deposits for the Student Activities Agency Fund are at the discretion of the School Principals and Superintendent of Schools.

Custodial Credit Risk

Custodial credit risk for deposits is the risk that in the event of a bank failure, the District's deposits may not be returned. For assurance against custodial credit risk, the District's investment policy stipulates that all deposits and investments be covered by federal depository insurance, with all balances in excess of FDIC insurance limits to be collateralized.

Of the District's deposits with financial institutions at year end, \$735,874 was collateralized by securities held by the bank in the bank's name.

NOTE 6—DEFINED BENEFIT PENSION PLAN

Plan Description

The District contributes to the New Hampshire Retirement System (NHRS), a component unit of the State of New Hampshire, as defined in Governmental Accounting Standards Board (GASB) Statement No. 67, *Financial Reporting for Pension Plans - an amendment of GASB Statement No. 25*. The New Hampshire Retirement System is a public employee retirement system that administers a single cost-sharing multiple-employer defined benefit pension plan. The plan provides service, disability, death and vested retirement allowances to plan members and beneficiaries. Benefit provisions are established and may be amended by the New Hampshire State legislature.

The NHRS issues a publicly available financial report that includes financial statements and required supplementary information for NHRS. That report may be obtained by writing to New Hampshire Retirement System, 54 Regional Drive, Concord, New Hampshire 03301.

Substantially all full-time state employees, public school teachers and administrators, permanent firefighters and permanent police officers with in the State are eligible and required to participate in the Pension Plan.

The Pension Plan is divided into two membership groups. State and local employees and teachers belong to Group I. Police and firefighters belong to Group II. All assets are held in a single trust and are available to pay retirement benefits to all members. All of the District's eligible employees are classified as Group I.

Benefits Provided

Group I members at age 60 or 65 (for members who commence service after July 1, 2011) qualify for a normal service retirement allowance based on years of creditable service and average final salary for the highest of either three or five years, depending on when their service commenced. The yearly pension amount is 1/60 or 1.667% of average final compensation (AFC), multiplied by years of creditable service. At age 65, the yearly pension amount is recalculated at 1/66 or 1.515% of AFC multiplied by years of creditable service.

HILLSBORO-DEERING COOPERATIVE SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)
For the Year Ended June 30, 2015

Members may qualify for vested deferred allowances, disability allowances and death benefit allowances subject to meeting various eligibility requirements. Benefits are based on AFC or earnable compensation and/or service.

Funding Policy

Plan members are required to contribute 7.0% of their covered salary and the District is required to contribute at an actuarially determined rate. The District's contribution rates for the covered payroll of teachers and general employees were 11.96% and 10.44%, respectively, for the year ended June 30, 2015. The District contributes 100% of the employer cost for teachers and general employees of the District.

Per RSA-100:16, plan member contribution rates are established and may be amended by the New Hampshire State legislature and employer contribution rates are determined by the NHRS Board of Trustees based on an actuarial valuation. The District's contribution to the NHRS for the year ending June 30, 2015 was \$1,016,636, equal to the required contribution for the year.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2015, the District reported a liability of \$11,758,573 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2013. The District's proportion of the net pension liability was based on actual contributions by the District during the relevant fiscal year relative to the actual contributions of all participating plan members, excluding contributions to separately finance specific liabilities of individual employers or NHRS. At June 30, 2014, the District's proportion was approximately 0.3133 percent, which was a decrease of 0.0079 percentage points from its proportion measured as of June 30, 2013.

For the year ended June 30, 2015, the District recognized pension expense of \$736,327. At June 30, 2015, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of <u>Resources</u>	Deferred Inflows of <u>Resources</u>
Net difference between projected and actual earnings on pension plan investments		\$ 1,504,519
Changes in proportion and differences between District contributions and proportionate share of contributions		280,702

Total	<u>\$ 1,016,636</u>	<u>\$ 1,785,221</u>

HILLSBORO-DEERING COOPERATIVE SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)
For the Year Ended June 30, 2015

The net amount of deferred outflows of resources and deferred inflows of resources related to pensions is reflected as a decrease to unrestricted net position in the amount of \$768,585. The District reported \$1,016,636 as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date. This amount will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Actuarial Assumptions

The total pension liability in the July 1, 2013 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.0 percent
Wage inflation	3.75 percent
Salary increases	5.8 percent, average, including inflation
Investment rate of return	7.75 percent, net of pension plan investment expense, including inflation

Mortality rates were based on the RP-2000 mortality table projected to 2020 with Scale AA. The table includes a margin of 15% for men and 17% for women for mortality improvements.

Retirement rates were based on a table of rates that are specific to the type of eligibility condition, last updated in 2011 pursuant to an experience study of the period 2005-2010.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of weighted average long-term expected real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Weighted Average Long-Term Expected Real Rate of Return (Net of inflation assumption of 3.0%)</u>
Fixed income	25%	(1.75)-2.00%
Domestic equity	30%	3.25%
International equity	20%	4.25-6.50%
Real estate	10%	3.25%
Private equity	5%	5.75%
Private debt	5%	5.00%
Opportunistic	5%	2.50%
Total	<u>100%</u>	

Discount Rate

The discount rate used to measure the collective pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the collective pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.75 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the single discount rate:

	<u>1% Decrease (6.75%)</u>	<u>Current Discount Rate (7.75%)</u>	<u>1% Increase (8.75%)</u>
District's proportionate share of the net pension liability	\$ 15,487,954	\$ 11,758,573	\$ 8,612,282

NOTE 7—OTHER POST-EMPLOYMENT BENEFITS

In addition to providing pension benefits, the District provides post-employment health insurance benefits to its eligible retirees and their spouses. The District provides medical, prescription drug, and other health benefits to retirees and their covered dependents. Retirees under the age of 65 have a choice for a medical insurance plan of Matthew Thornton Blue, Blue Choice 2 – Tier and COMP 100. Upon termination of employment with the District, if an employee is not eligible for immediate or vested deferred pension benefits through NHRS, the individual will still qualify as a retiree of the District for group health plan coverage purposes if he or she is age 60 or older at the time of retirement and has a total of at least 10 years of service with the District. To qualify, or to continue to qualify as a retiree, the individual must also not be actively working more than 20 hours per week or covered under another employer-sponsored

group health plan. Retirees pay the full cost of the medical premium. The benefits, benefit levels, employee contributions and employer contributions are governed by RSA 100-A:50. As of July 1, 2013, the most recent actuarial valuation date, 10 retirees and 201 active employees meet the eligibility requirements. The plan does not issue a separate financial report.

Annual OPEB Costs

The District's annual OPEB expense for the fiscal year ended June 30, 2015 is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid, on an ongoing basis, is projected to cover the normal cost each year and amortize the unfunded actuarial liability over a period of thirty years. The District's annual OPEB cost for the year ending June 30, 2015 including the amount actually contributed to the plan, and the change in the District's net OPEB obligation based on an actuarial valuation as of July 1, 2013 is as follows:

Annual Required Contribution (ARC)	\$ 151,351
Interest on net OPEB obligation	17,254
Adjustment to ARC	(24,461)
Annual OPEB cost	144,144
Contributions made	(19,227)
Increase in net OPEB obligation	124,917
Net OPEB obligation - beginning of year	431,355
Net OPEB obligation - end of year	<u>\$ 556,272</u>

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for the years ended June 30, 2015, 2014 and 2013 are as follows:

Fiscal Year <u>Ended</u>	Annual <u>OPEB Cost</u>	Percentage of Annual OPEB <u>Cost Contributed</u>	Net OPEB <u>Obligation</u>
6/30/2015	\$ 144,144	13.3%	\$ 556,272
6/30/2014	\$ 137,116	8.8%	\$ 431,355
6/30/2013	\$ 100,048	18.1%	\$ 306,333

The District's net OPEB obligation as of June 30, 2015 is recognized as a liability of the governmental activities in these financial statements.

Funded Status and Funding Progress for OPEB

The funded status of the plan as of July 1, 2013, the date of the most recent actuarial valuation is as follows:

Actuarial Accrued Liability (AAL)	\$ 958,267
Actuarial value of plan assets	-
Unfunded Actuarial Accrued Liability (UAAL)	<u>\$ 958,267</u>
Funded ratio (actuarial value of plan assets/AAL)	0.0%
Covered payroll (active plan members)	\$ 8,777,965
UAAL as a percentage of covered payroll	10.9%

HILLSBORO-DEERING COOPERATIVE SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)
For the Year Ended June 30, 2015

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. The total cost of providing post-employment benefits is projected, taking into account assumptions about current claim cost, turnover, mortality, health care trends, and other actuarial assumptions. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

The required schedule of funding progress presented as required supplementary information provides multi-year trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Actuarial Methods and Assumptions for OPEB

Projections of benefits for financial reporting purposes are based on the plan as understood by the District and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the District and plan members to that point. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

In the July 1, 2013 actuarial valuation the Projected Unit Credit Method was used. The actuarial value of assets was not determined as the District has not advance funded its obligation. The District employs the Pay-as-you-go Cash Basis to fund the plan. The actuarial assumptions included a 4.0% investment rate of return and an initial annual medical cost trend of 3.46% which increases to a 5.0% long-term rate for all medical benefits after six years. The amortization costs for the initial Unfunded Actuarial Accrued Liability (UAAL) is a level dollar amortization for a period of thirty years on a closed basis.

NOTE 8—LONG-TERM OBLIGATIONS

Changes in Long-Term Obligations

The changes in long-term obligations of the governmental activities are as follows:

NOTE 11—FUTURE COMMITMENTS

During March 2014, the District entered into long-term contracts with two independent bus companies to provide pupil and special education transportation services through June 30, 2017. The contract for pupil transportation includes the option to extend the terms of the agreement in one year periods through June 30, 2019. For the year ended June 30, 2015, the District expended \$517,355 and \$153,912 under the terms of the agreements for pupil and special education transportation services, respectively. Minimum payments under the terms of the agreements are as follows:

NOTE 12—CONTINGENT LIABILITIES

Federal Grants

The District participates in a number of federally assisted grant programs. These programs are subject to financial and compliance audits by the grantors or their representatives. The amounts, if any, of expenditures which may be disallowed by the granting agency cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

Litigation

There may be various claims and suits pending against the District, which arise in the normal course of the District's activities. In the opinion of District management, any potential claims against the District, which are not covered by insurance are immaterial and would not affect the financial position of the District.

NOTE 13—RESTATEMENT OF NET POSITION

During the year ended June 30, 2015, the District adopted Governmental Accounting Standards Board (GASB) Statement No. 68 - *Accounting and Financial Reporting for Pensions*, as described in Note 1 of these financial statements. The impact on beginning net position of the Governmental Activities as of July 1, 2014 is as follows:

NOTE 1—BUDGET TO ACTUAL RECONCILIATION

General Fund

Amounts recorded as budgetary amounts in the Schedule of Revenues, Expenditures and Changes in Fund Balance – Budget and Actual (Budgetary Basis) – General Fund (Schedule 1) are reported on the basis budgeted by the District. Those amounts differ from those reported in conformity with accounting principles generally accepted in the United States of America in the Statement of Revenues, Expenditures and Changes in Fund Balances – Governmental Funds (Exhibit D). General Fund budgetary revenues and other financing sources and expenditures and other financing uses were adjusted for encumbrances, non-budgetary revenues, and budgetary transfers as follows:

	Revenues and Other Financing <u>Sources</u>	Expenditures and Other Financing <u>Uses</u>
Per Exhibit D	\$ 19,961,499	\$ 20,211,328
Encumbrances, June 30, 2014		(270,132)
Encumbrances, June 30, 2015		131,920
Non-budgetary revenues	(921)	
Budgetary transfers		150,000
Per Schedule 1	<u>\$ 19,960,578</u>	<u>\$ 20,223,116</u>

Major Special Revenue Fund

The District adopts its budget under regulations of the New Hampshire Departments of Education and Revenue Administration which differ from accounting principles generally accepted in the United States of America. Consequently, budgetary information is not presented for the Grants Fund as the information is neither practical nor meaningful.

NOTE 2—SCHEDULE OF FUNDING PROGRESS FOR OTHER POST-EMPLOYMENT BENEFITS

In accordance with GASB Statement #45, *Accounting and Financial Reporting by Employers for Post-Employment Benefits Other Than Pensions*, the District is required to disclose the schedule of funding progress for each of the three most recent actuarial valuations. The District implemented the provisions of GASB Statement #45 during the year ended June 30, 2010. Accordingly, the funding progress has been presented for the three most recent actuarial valuation reports.

THE NET PENSION LIABILITY AND SCHEDULE OF DISTRICT CONTRIBUTIONS**

In accordance with GASB Statement #68, *Accounting and Financial Reporting for Pensions*, the District is required to disclose historical information for each of the prior ten years within a schedule of changes in the District's proportionate share of the net pension liability, and schedule of District contributions. The District implemented the provisions of GASB Statement #68 during the year ended June 30, 2015. Accordingly, the historic information has only been presented for those years which information was readily available. Additional disclosures will be made in future years as the information becomes available.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS***

Independent Auditor's Report

To the School Board
Hillsboro-Deering Cooperative School District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Hillsboro-Deering Cooperative School District, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Hillsboro-Deering Cooperative School District's basic financial statements, and have issued our report thereon dated March 31, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Hillsboro-Deering Cooperative School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Hillsboro-Deering Cooperative School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Hillsboro-Deering Cooperative School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

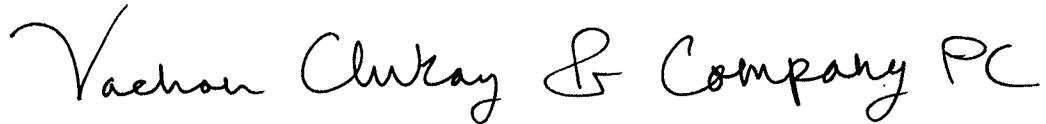

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Hillsboro-Deering Cooperative School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM
AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE****Independent Auditor's Report**

To the School Board
Hillsboro-Deering Cooperative School District

Report on Compliance for Each Major Federal Program

We have audited the Hillsboro-Deering Cooperative School District's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the Hillsboro-Deering Cooperative School District's major federal programs for the year ended June 30, 2015. The Hillsboro-Deering Cooperative School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Hillsboro-Deering Cooperative School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Hillsboro-Deering Cooperative School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Hillsboro-Deering Cooperative School District's compliance.

Opinion on Each Major Federal Program

In our opinion, the Hillsboro-Deering Cooperative School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2015.

Report on Internal Control Over Compliance

Management of the Hillsboro-Deering Cooperative School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Hillsboro-Deering Cooperative School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Hillsboro-Deering Cooperative School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.
